The ABS audit team gathered objective evidence of compliance through the observation of daily activities, interviews of crew members, and the examination of pertinent records on board the ship. This information was compared to the existing policies and procedure of the company and the requirements of the ISPS Code Part A, and relevant sections of Part B (8.1-13.8), to determine the levels of compliance obtained. This evidence was documented within the audit team's checklists, notes, examples, and this report. A copy of this report was left with the ship's Master at the conclusion of the verification.

Audit Task	Task Status	Non-Conformities Issued		Observation Issued

21284979-4684998-017	Interim International Ship Security Certificate (ISSC)	Issued	Interim	16-Mar-2021	15-Sep-2021

Audit Program

The verification began with an opening meeting. The discussion covered the scope and purpose of the audit, the audit schedule and process, and the escort responsibilities. The verification was performed in accordance with ABS procedures and as authorized under the above scope. The ABS audit team gathered objective evidence of compliance through the observation of daily activities, interviews of crew members, and the sampling of pertinent records on board the ship. This information was compared to the existing policies and procedures of the company and the requirements of the ISPS Code Part A, and relevant sections of Part B (8.1-13.8), to determine the levels of compliance obtained. The Audit Plan depicts the departments audited and clauses against which they were assessed.

The verification ended with a closing meeting. The discussion included a review of the activities carried out, presentation of the deficiencies (if any), and review of the notable Observations made during the course of the audit.

A copy of the preliminary report, deficiencies and audit observations, if any, were left with the ship's Master at the conclusion of the audit. The final report supersedes the preliminary.

NOTE: This report evidences that the survey reported herein was carried out in compliance with one or more of the Rules, guides, standards or other criteria of the American Bureau of Shipping and is issued solely for the use of the Bureau, its committees, its clients or other authorized entities. This Report is a representation only that the vessel, structure, item of material equipment, machinery or any other item covered by this Report has been examined for compliance with, or has met one or more of the Rules, guides, standards or other criteria of American Bureau of Shipping. The validity, applicability and interpretation of this Report is governed by the Rules and standards of American Bureau of Shipping who shall remain the sole judge thereof. Nothing contained in this Report or in any notation made in contemplation of this Report shall be deemed to relieve any designer, builder, owner, manufacturer, seller, supplier, repairer, operator or other entity of any warranty express or implied. This audit report must be retained, by the company, for a period not less than five years and must be made available to ABS auditor(s) upon request.

Assessment Remarks

Opening Meeting Date 15-Mar-2021

Closing Meeting Date 16-Mar-2021

Objective Interim ISPS audit was carried out as request related to vessel new delivery from shipyard. At the time of this audit, vessel was at Zhoushan Tsuneishi shipyard under preparation for sea. Marshall Islands flag administration special requirement was verified. This vessel is Bulk Carrier, and managed by ISM SHIP MANAGEMENT PTE LTD

Following was verified during this audit:

1. The ship security assessment and on-scene security survey were carried out as required, report was verifiable.
2. Draft copy SSP was submitted to ABS Singapore for review, confirmation email from ABS Office was verified.
3. CSO and DCSO were appointed for this vessel, their contact details were posted at public area. Crew member's awareness of CSO's role and contact details were verified through interview. Declaration of CSO was submitted to MI flag administration, record was verified on board.
4. Ship's Master was appointed as SSO, his SSO training certificate in compliance with the requirement of STCW was verified, SQC was issued by MI on 21 March 2019. Interviewed with SSO, revealed that he was familiar with the SSP and SSO's duties and responsibilities.
5. Crew initial shipboard security familiarization training was carried out as required; relevant records were verified.
6. Interviewees were generally familiar with their respective assigned duties on ship security.
7. Security drill was carried out on 14 March 2021, record was verified.
8. AIS and SSAS has been installed on board, SSAS has been inspected/tested by an approved radio technician. Auditor witnessed SSO to conduct SSAS function test, testing report was verified, revealed that relevant information required by MI flag administration was programmed in.
9. Vessel's IMO number marked external and internal was observed.
10. Security equipment identified in the SSP was found in operational condition and fit for the intended service during walk about the ship.
11. Walk about the vessel was carried out, no obvious defect was found.

At the end of this audit, Interim ISSC valid until 15 September 2021 was issued on behalf of flag administration.
