ONE Provided Free Transportation to Deliver Used Wheelchairs to Disabled Children in Paraguay

In February 2020, ONE Japan worked with a Japanese Non-Governmental Organisation, "The Volunteers Group to Send Wheelchairs to Overseas Children", to provide free transportation and deliver used wheelchairs for physically challenged children in Paraguay.

As of present-day, many disabled children in developing countries do not have the privilege of having their own wheelchairs and are largely cooped up indoors. On the other hand, many clean and usable wheelchairs in Japan are not used anymore as children continue developing and outgrow their wheelchairs. Realising this opportunity to better cater to the needs of the children in developing countries, the organisation began campaigning to receive donations and deliver used wheelchairs, gathering much support and goodwill.

A container filled with the wheelchairs departed Tokyo, Japan in February and was delivered to Asuncion, Paraguay by ONE container ship. In light of the current global pandemic, the arrival of the donated wheelchairs only reached the National Secretariat for Human Rights of Persons with Disabilities (SENADIS) in August. Nevertheless, the wheelchairs will be handed over to children who need them, bringing them greater mobility.

ONE Provided Free Transportation to Deliver Used Wheelchairs to Disabled Children in Paraguay

ONE Japan is proud to have participated in this event, involving the cleaning and refurbishing of used wheelchairs, as well as the provision of free transportation. In support of the activity, the ambassador from the Embassy of the Republic of Paraguay in Japan also visited on the day of the wheelchair refurbishing. It was heartwarming to see the support garnered through this initiative, and ONE will continue to provide different forms of support to spread positivity globally.
